## A Heritage of Quality

Legacy Whirlpool is one of those unique products that combine world class quality, outstanding therapy, luxury amenities, all at a surprisingly affordable price.

What makes the Legacy line even more of a value is that it is manufactured by Master Spas, the award winning global leader in luxury spas. In fact in a recent independent consumer survey, Master Spas had the highest quality score of any leading manufacturer.

Usually a spa in this price range is built by a small no name manufacturer whose quality, warranty, and even safety standards are all questionable. Or if it is built by a quality manufacturer, it is a stripped down, bare bones model.

With Legacy you not only get quality and reliability but also features you wouldn't expect like the maintenance free Dura Master Polymer skirt, LED

waterline lighting\* and even a backlit waterfall. Legacy Whirlpool is the perfect spa for your budget.

---

*Master Spas Inc is located in Fort Wayne, Indiana and operates from a 28 acre manufacturing campus. A recognized leader in luxury, Master Spas has dealers around the world, including Europe, Russia and China.*

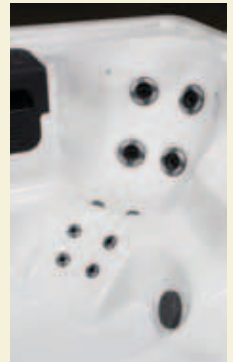

**Therapy** Every Legacy model has ergonomically designed seating that cradles your body while up to 40 specially positioned, high performance jets, combine with two\* oversized pumps to provide you with pain relieving, soul soothing therapy.

**Stereo System** Or maybe you just want to sit back and relax in the warm, swirling water and listen to your favorite tunes. The optional Docking Station turns your Legacy Whirlpool into an outdoor concert hall. This quality, marine grade music system lets you listen to your favorite tunes. What could be more relaxing?

**LED Lighting** Most Legacy Whirlpool models come standard with a sophisticated waterline LED lighting system that lets you set the perfect mood with a rainbow of soothing colors, all with the touch of a button. Even the standard waterfall\* glows with the warmth of the LED light.
